Code numbers

- 790300 - Tempomix shower panel with round anti-vandal head - top entry.
- 790350 - Tempomix shower panel with flexible shower set - top entry.
- 790310 - Tempomix shower panel with round anti-vandal head - back entry (*flexibles*).

Description

Pre-assembled aluminium panel, is supplied with Tempomix time flow shower auto shut-off mixer and a round vandal-proof fixed shower head with incorporated scale-proof nozzle. Spray angle is adjustable but can be locked by the installer. Shut-off delay ~30 sec. (+5 / -10 sec.), self-cleaning mechanism. Automatic flow-rate regulator 8 l/min. Surface mounted with options for top, bottom or back entry water supply. Supplied with pre-installed stainless steel flexibles connectors, filters and stop valves.

Advantages

- Vandal resistant: Stainless steel frame with vandal-proof fixing, and blanked ends preventing access to the back of the panel. Shower valve and shower head cannot be removed by the user. More than 60% water and energy saving automatic delayed shut-off and regulated flow-rate.
- Comfort and safety: Smooth opening and safe rounded corners. Temperature is adjustable by rotating the control knob, between the cold and the mixed water supply temperature, set on the thermostatic mixing valve.
- Automatic flow-rate restrictor: flow-rate is regulated, the same quantity of water is distributed to each shower unit from the first to the last.
- Simple installation 4 stainless steel screws fix pre-assembled frame.
