

Economix Combi thermostatic mixing valve

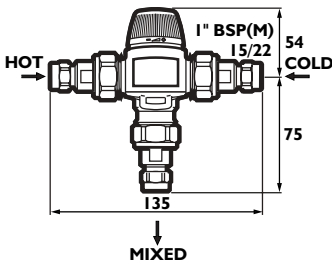

Economix 15/3

A. 140mm

Economix 22/3

A. 150mm

Economix thermostatic mixing valve

Data

The Economix thermostatic mixing valve is available in standard and Combi formats for 15 and 22mm and is tested and certified with NHS Model Engineering Specification DO8.

Approved to DO8 spec no. ETC/BC 111/0105

WRAS listed no. TBA

Designated Applications

HP/LP-B

HP/LP-S

HP/LP-W

HP-T44

- High / Low pressure bidet
- High / Low pressure shower
- High / Low pressure wash basin
- High pressure bath fill up to 44°C

Connections

Economix 15/3 standard

- 15mm compression

Economix 22/3 standard

- 22mm compression

The use of Keysafe isolating ball valve strainers are recommended with the above versions. Economix Combi versions are supplied complete with 4 in 1 angle inlet connectors incorporating stainless steel mesh strainers, non return valves, 1/4" BSP pressure tapping point and 1/4 turn lever ball valves. Full spares kit available.

Materials

Body

- DZR Brass, chrome plate finish

Valve

- DZR Brass, chrome plate finish

Element

- Copper

Non return valve

- Hostaform plastic

Top Cover

- Plastic

Strainer ('Combi' only)

- Stainless steel

Code numbers

983615 - 15mm Economix 15/3 thermostatic mixing valve.

993615 - 15mm Economix 15/3 Combi thermostatic mixing valve.

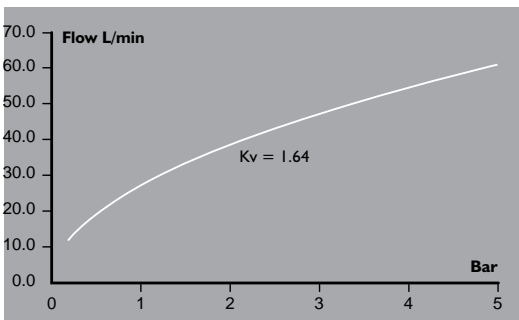

983622 - 22mm Economix 22/3 thermostatic mixing valve.

993622 - 22mm Economix 22/3 Combi thermostatic mixing valve.

Application

The Economix thermostatic mixing valves are licensed for use with wash hand basins, showers and bidets in Healthcare applications under the requirements of the NHS Estates DO8 specification.

Economix mixing valves can also be used in any application where it is necessary to reduce hot water temperatures at wash hand basins, showers or bidets and baths to limit the risk of accidental scalding. This is especially important in school sports centres, factories, prisons, etc., where normal hot water temperatures (60°C) can cause serious burns.

How to specify

15mm Economix 15/3 thermostatic mixing valve. Code no. 983615

15mm Economix 15/3 Combi thermostatic mixing valve.

Code no. 993615

22mm Economix 22/3 thermostatic mixing valve. Code no. 983622

22mm Economix 22/3 Combi thermostatic mixing valve.

Code no. 993622

Dimensions in mm

All measurements exclude nuts and olives
